FOR IMMEDIATE RELEASE

**20% OF WASHINGTON'S FASTEST GROWING
GOVERNMENT CONTRACTORS ARE CLIENTS OF AWR**

McLean, VA — September 20, 2007 — Argy, Wiltse & Robinson, P.C. (AWR), a growing certified public accounting and business advisory firm, is pleased to announce that 10 of its clients are listed on *Washington Technology's* 2007 Fast 50 Government Contractors, including the #1-ranked company, Oberon Associates. Companies are ranked on how fast their government revenues grew from 2002 through 2006.

Other clients on the list include Allen Corporation of America, DKW Communications, Addx Corporation, Platinum Solutions, Cascades Technology, Earth Resources Technology, Access Systems, and Micropact Engineering. A full list of the Fast 50 can be found at www.washingtontechnology.com.

About Argy, Wiltse & Robinson, P.C. (AWR)

Headquartered in McLean, Virginia, with an office outside Fort Lauderdale, Florida, Argy, Wiltse & Robinson (AWR) provides a vast array of specialized tax, accounting and business advisory services. The company — one of the largest public accounting firms in the Washington metropolitan region — serves a broad base of clients in the government contracting, non-profit, technology, real estate, medical, automotive, publishing, professional services and hospitality sectors. AWR's exceptional service and consistent rapid growth have been recognized by such publications as *Inside Public Accounting*, *Accounting Today*, *Public Accounting Report* and *Forbes*. For more information, visit www.awr.com.

Washington Technology Fast 50

The Fast 50 companies are ranked on how fast their government revenues grew from 2002 through 2006. This includes federal, state, and local revenues. Companies nominate themselves for the list. To qualify, companies needed to have a minimum of \$100,000 in government revenue in 2002. They also had to meet the federal government criteria for a small business or be a member of the 8(a) program. Each company provided Washington Technology with its government revenue numbers, along with a statement from an independent accountant or other documentation verifying the accuracy of the numbers. The companies were then ranked according to their compound annual growth rate, not total revenue.
